*No screw, no split,
...you will love it!*

Exterior wood flooring

Softline® is a revolutionary system of wood flooring for the garden and around swimming pools. It's original features? - No visible screw, nothing to mar the surface. This system has some appreciable virtues. It offers beauty with maximum comfort. No more risk of visible rusting screw spoiling the appearance over time. Fixation is invisible and unbreakable under the layers of wood. The timber species selected (Ipe, Merbau, Padauk, Tali and Teak) are Class 1 rot-proof, have high levels of stability - and a long life!

Softline® succeeds by bringing together quality and beauty. A system without apparent screw or hidden defects! Why settle for second best?
